

# fuze

The Fuze capitalizes on a new school, flat, pod style rocker profile and does it in a stable and easy to paddle short board template. The flat tail rocker ensures plenty of acceleration even in the most gutless conditions.

The foil is minimal from the front foot back and carried out through the tail adding a bit of volume further back in the board which creates a stable, large sweet spot that helps the board project through turns. The rounder performance template and squash tail make the board stable, versatile and responsive that is down the line oriented for speed in small surf or anywhere you need to generate speed.

If your looking for one shortboard to cover a wide variety of conditions then this is the board for you.

Single / Double

Performance Rail

2-6ft Waves

Intermediate - Advanced

LENGTH	WIDTH	THICK	VOLUME	FINS	APPROX WEIGHT RANGE
6'0"	19 3/8"	2 1/2"	29 ltr	FCS M5	0-154lbs (0-70kg)
